“ A boy from the hinterlands of Jharkhand”

— Subham Kumar Gupta
Production Engineering
Batch 2015-19
B.I.T Sindri

INTRODUCTION

My family

I have a strong supporting Mother with a caring father and three siblings.

My schooling

I did my matriculation from Agarwala High School Tisri and secured 82.4% in JAC Board and ranked 18th in Giridih District.

I did intermediate from St. Columba's College Hazaribag with 74.6% in JAC Board

What challenges or fun you had in early life/before college?

1. **A Teacher guided me during my intermediate to choose engineering for further studies but I don't know how to prepare effectively for it.**
2. **Any how I managed to join a small coaching and prepared for JCECE taking 1 year break after intermediate**

About Subham

College stats

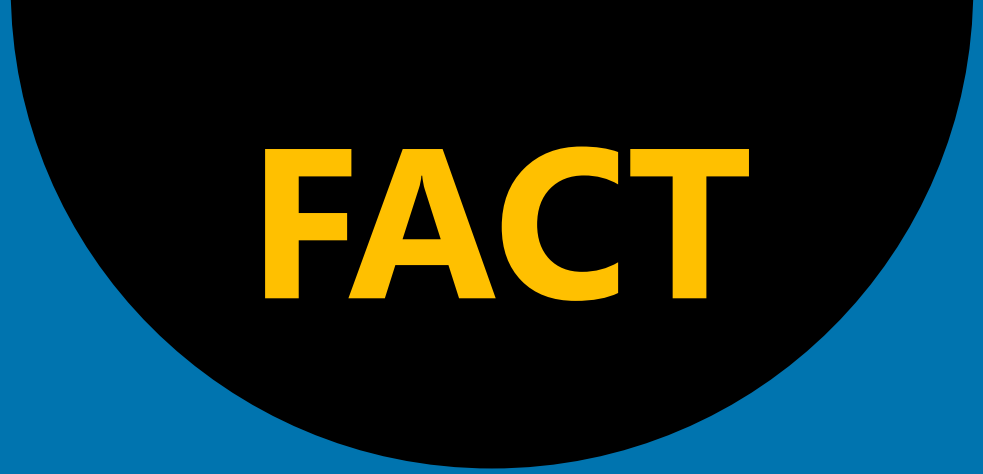
Walking inside campus and nearby market with friends in evening ,playing volleyball, carrom, celebrating birthday parties, semester result party

“My friends said”

Friends in hostel are very supportive and friendly . They inspire me for study and praise my dedication towards my goal

“My teachers/tutors/others said”

Being a hindi medium student I scored good in my academics and currently I rank 7 th Position in my branch



Financial facts about my situation

My father has a very small Bussiness in village and I can’t imagine to buy a laptop or study in any other private college or NIT’s without loan. It has been possible for me to study Engineering only due to the lowest fee for B.Tech in Bit Sindri. And with the help of kind initiative by Anant Prayas my need of laptop has also fullfilled here.

1

How do I use my LAPTOP

There are various needs and benefits some of which are Practice of CAD and Solid work model Preparation of final year project Making Resume for placement , reading pdf , taking online tests etc.

2

My application

I came to know about this first time in facebook but thought why anyone would distribute laptop to students from his money. But later when One of my friend got it and explained me about Anant effort for needy students then I applied in next round.

Tears came out of my eyes when I saw the message for my final selection. My parents are surprised & happy to know that my college has such alumni who care about the students need during their study.

4

I have been recruited in Usha Martin Ranchi through college placement. I will start to re-pay from August this year itself

I would like to thank all the alumnous who are supporting Anant prayas team for distributing laptop to the students at the time of their crucial need.

This effort would really prove to be ANANT itself oneday as it is supporting those students who have good academics but unable to purchase laptop during their study period. I would request all the alumni to come forward and support Anant prayas as it helps the student of our Alma matter to achieve their dream. By the support of all of you the day will come when all the needy applicant could get laptop.

BECAUSE SOMEONE CARED
WE WIN EVERYDAY

THANK YOU
